

Audrey Bone, Toxicologist, in EPA's National Center for Computational Toxicology

Mailing Address

bone.audrey@epa.gov

Area of Expertise: Dr. Bone is a toxicologist with 7 years of experience conducting independent research on the impact of environmental exposures on biological pathways. She has experience in mechanistic and eco-toxicology using zebrafish, mosquitofish and Atlantic killifish as model systems as well as computational toxicology using quantitative high throughput screening (qHTS) datasets such as ToxCast.
